A fun game to play with friends that is addicting, fast-paced, and easy to play for short to mid-length amounts of time. Having controllers for all involved is a must I would argue, as keyboard controls are not great. Would definitely recommend if you enjoy Towerfall and are looking for something in a similar but different vein.. This game is really hard. You have to be really stealthy in order to make it alive. I tried a couple of times, but I've yet to beat the first level.

The game isn't terrible, it's just very difficult.

If you want the challenge, buy it on sale, but I don't really recommend this game. I don't know what else it offers, so that's about all it has to it.. recommended game if you looking for a meme game LuL. Fun little time waster that would fit perfectly on mobile phones...on PC it lacks controller support!. I'm not gonna say anything since that would be repeating what people have said.

Just buy the game.. Very good adaptation of the D&D boardgames! There is a progression system of the characters and the campaign seems good too!. Really fun, starts off easy and then the difficulty spikes for a bit.. There are thousands of free games better than this. Such a disaster.

---

Broken. Wouldn't even start. Also had to signup with email and address. DO NOT BUY THIS PEICE OF CRAP NO MATTER HOW CHEAP IT IS! STOP SUPPORTING AWFUL DEVELOPERS!. A very fun and adorable game that'll make you want to do well in it to hear cute cat noises in time with the victory jingle.

Controls are pretty tight, as expected from the folks who made They Bleed Pixels. Evolutions and additions to stages add a lot of fun garbage to juggle and consider when barking at old women to steal their food.

It oozes fun style and has cute little attentions to detail.. Great game. :) Good graphics and music. :). Fun watching the empires rise and fall, and it's good on PC because you can make the galaxies quite large.. 20/10 Points this game is sooo very good like you play this gardener and his name is gnade and he is bisssing on burple rbfreunds best game would recommend anyone. Great little skill game with beautiful visuals. Well worth it for the price of a coffee!

Also may or may not go well when complimented with a bunch of acid.. It doesn't want you to stop playing. If you have queued for a match you can't cancel out. So if it's stuck looking for one, you have to whip out the task manager cause alt-f4 isn't working. Just don't buy it.. Waste of my time. Game had me looking for♥♥♥♥♥♥in a♥♥♥♥♥♥stack.. Good game ;)
